

## Why Jason has been chosen for this project –

Jason has been involved in the construction industry for over 25 years with a focus on pavement maintenance and rejuvenation in both Australia and Overseas for the past 20 years. His experience encompasses project management of Local Government, Airport and Defence projects.

Jason joined Colas in 2011 and has been instrumental in building and developing the rejuvenation and crack sealing market throughout Australia. Colas have become one of the major players and provide services to many local governments and asphalt service providers. Prior to joining Colas Jason was responsible for the rejuvenation and crack sealing business at Downer. Under this role he managed over \$4M worth of project per year.

Downer purchased APMS in December 2008 and under the APMS banner Jason further developed the pavement maintenance business and a retail section that supplied products directly to clients throughout Asia.

Prior to this Jason established the APMS business in Hong Kong and China with projects undertaken for Hong Kong airport and Haicang suspension bridge in Xiamen, China. Previous to this Jason was involved in design and construction projects in Asia and the UK.

## General Manager Solutions

# Jason Williams

### What Jason will bring to the project

- With the experience of working with numerous local governments and airports throughout Australia, Jason's role is to ensure that all members of the rejuvenation, spray sealing, crack sealing and line marking have a high level of expertise and attention to detail for every project.
- Providing clients with detailed programs of work means that each project is completed within time on budget and with minimal disruption to the public / airfield and client.
