

SRS COLOURCOAT

HIGH PERFORMANCE COLOURED PAVEMENT PROTECTION

An innovative coloured sealcoat treatment designed to beautify and protect existing asphalt and spray sealed pavements.

WHAT IS SRS COLOURCOAT ?

SRS ColourCoat is a high performance, environmentally friendly and cost effective coloured pavement surfacing solution. Our sealcoats are designed to beautify and extend the life of existing bituminous pavements by protecting the surface from wear.

SRS ColourCoat helps prevent surface damage due to the deteriorating effects of water ingress and weathering.

Available in a range of many different colours and can be applied by squeegee or spray equipment.

SRS COLOURCOAT can be used for:

- Pedestrian walkways
- Bicycle paths
- Bus lane
- Safety/OH&S
- School zone
- Loading zone
- Car parks
- Residential driveways
